

# MOSQUITO WALL

**PRODUCT DETAILS:** Our formula consists of 100% garlic juice with no additives. Thanks to advancements in garlic juice processing technology, our product no longer requires preservatives.. It is suitable for application on a variety of vegetation including plants, grass, shrubs, flowers, ornamental plants, trees, and vines, as well as any standing water in the vicinity, such as beneath porches and decks. The initial garlic odor is strongest right after application and typically less noticeable after the first hour. When applied as recommended, it is safe for all types of vegetation and will not alter the taste of food plants.

ECG Mosquito Wall should be mixed with water before use. Thoroughly combine the mixture and apply it following the instructions provided. To improve adherence to the vegetation, a small amount of a sticker can be added. Please consult the detailed instructions below for the specific proportions of ECG Mosquito Wall and water to use.

## DIRECTIONS:

### MIXING INSTRUCTIONS:

Shake the ECG Mosquito Wall container well before mixing.

For each gallon of water, add:

- 8 teaspoons for light infestations
- 16 teaspoons for heavy infestations

Mix thoroughly. Use warm water if available.

For hose-end sprayers, fill the bottle halfway with ECG Mosquito Wall and the rest with water.

Set the dial to 2 ounces per gallon, or 12 teaspoons per gallon.

If there's no dial, use 20 ounces of ECG Mosquito Wall and fill the rest with water.

**NOTE:** The product is formulated to remain gentle on plants and animals, even if applied at higher-than-recommended levels.

### APPLICATION INSTRUCTIONS:

**TIMING:** Spray between 8-11 AM or 5-7 PM. Avoid midday heat, wind, and rain within 24 hours.

**AREAS:** Use a heavy mist on grass, ornamentals, flowers, vegetables, trees (cover lower limbs), and any standing water. Thoroughly cover all foliage, including the undersides of leaves. Use any leftover spray to reapply.

**ADDITIONAL BENEFITS:** Also repels armadillos, deer, field mice, yard fleas, ticks, and geese.

This mixture is recognized by the FDA as GRAS (Generally Recognized As Safe)

### ACTIVE INGREDIENTS

Garlic Oil.....100%  
Total.....100%

### CAUTION: KEEP OUT OF REACH OF CHILDREN
